

# Le Big

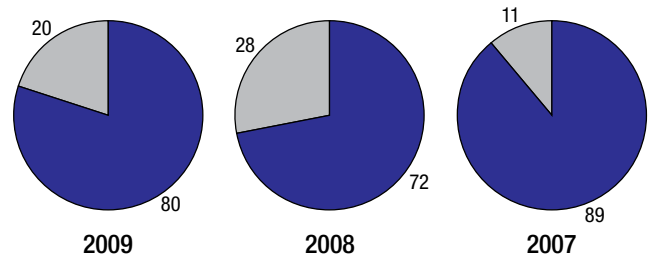

**Social conditions** Le Big produced 80% of their 2009 collection in Portugal which is classified as a low risk country category. This is an increase of 8% from the 2008 figure. The remaining 20% was produced with a supplier in Turkey. This supplier already started a social improvement programme and the first audit took place in autumn 2008. There are still some improvements to be made and due to limited production volume it is difficult for Le Big to speed up the progress.

**Environmental conditions** 80% of the Le Big 2009 collection consisted of cotton. From this amount they managed to produce 92% with organic cotton (Class B), which was an increase of 20% from the usage in 2008. Production of the Le Big organic cotton items took place in Turkey and Portugal.
