

Suite69

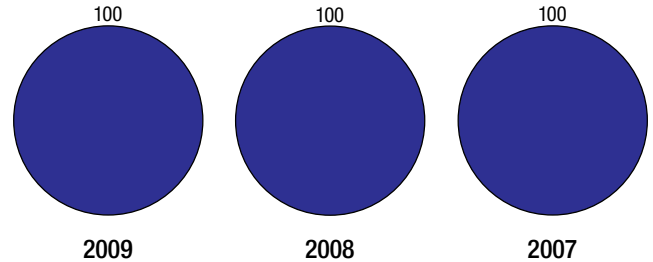

Social conditions In 2009, 100% of Suite69 products were produced in three factories; in Turkey, China and India. The working conditions of those three factories are regulated according to social standards from Fair Wear Foundation (FWF) (Class A). The three factories have been audited and they have made continuous improvements over 2009, which indicate that they are highly committed and take the social improvement programme seriously.

Environmental conditions In 2009, Suite69 had 74% of its total cotton collection made from organic cotton. It is an increase of 8%, which is consequently reflected in the higher score of Class B. The large part of Class E on the scorecard is due to the usage of bamboo-viscose material.

Socially certified

% of total collection

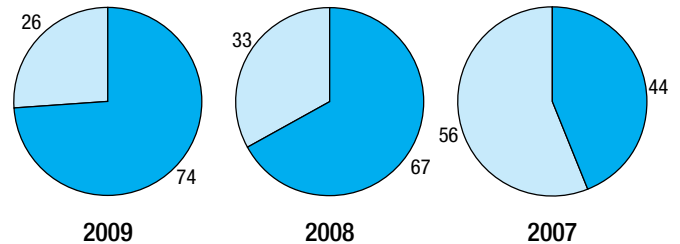

- class A
